

ADVISORY SERVICES

Signature Advisory Services provides clients with a comprehensive range of professional project and construction management related services, all specifically tailored to meet the exact requirements of each individual client and the project environment. The project manager has no other business objectives than to act in the best interest of the client, thus allowing the client to concentrate on core business responsibilities.

Advisory Services' guiding principle is to add value at each step of an assignment. By remaining focused on the clients operational and financial objectives, Project Management creates and preserves value, effectively controlling each

assignment, providing responsive services to clients and ensuring that value for money, quality of facility and project scheduling are optimized throughout the entire process.

A range of services we provide to clients are:

- Development Consulting
- Traditional Design/Bid/Build Project Management
- Project Monitoring
- Construction Monitoring
- Cost Management
- Relocation Management
- Project Consultancy
